WE NEED

TRANSLATORS

This is the most important role in any scanlation. A translator is the one in charge of transcribing the translation a manga into English.

Only requirements are to have time and be willing to help!

It's an easy job, and depends only on the level of knowledge that you might have about the language you're translating from.

Languages:

Japanese, Chinese,
Korean, Russian,
French, etc.

Is the only position which we can not prepare you, since you must have had acquired the language before joining, nevertheless we can teach how to organize the translation and give you a template.

WE NEED CLEANERS

A cleaner or redrawer is the person in charge of erasing all text on each page and redraws part of the background, to make it look like it never had text before.

It presents medium difficulty since you have to clean as much as possible, and that takes time and dedication. But, if you have an eye for detail, we can assure you that your work would be of an excellent quality.

Only requirements are to have time and be willing to help!

If, like John Snow, you know nothing about pothoshop, or maybe you are not sure about how to use the tools, don't worry, we have plenty of tutorials and patience to teach you!

WE NEED TYPESETTERS

A typesetter, is the person in charge of putting the words on every page of a chapter.

Is an easy job since you only have to copy the words from the translation and paste them onto the clean pages.

Only requirements are to have time and be willing to help!

The only thing to consider is which font you should use in each case and its size. But no worries, we are here to teach you!
